Project Overview

The following is a general but not necessarily complete description of the works to be constructed under this contract:

Repairs are to be completed at 3 municipally owned bridges in the Township as outlined below:

Villeneuve Bridge

- Crack routing and repair with cementitious filler along concrete barrier walls and abutment
- Pour spalled concrete patches along barrier wall and full depth repairs at railing guards
- Salt guard application on road side, top and ends of concrete barrier walls

Little Rideau Creek Bridge

- Removal of delaminated concrete on barrier walls
- Cleaning and preparation of existing concrete
- Full depth repairs at railing guards and spalled concrete patches on barrier walls
- Salt guard application on road side, top and ends of concrete barrier walls

**CORPORATION OF THE TOWNSHIP OF CHAMPLAIN
NOTICE OF INTENDED PROCUREMENT**

Ritchance Bridge

- Removal of delaminated concrete on barrier walls
- Cleaning and preparation of existing reinforcement and concrete
- Full depth repairs at railing guards and concrete patches on barrier walls
- Local crack repairs to bridge deck and soffit
- Salt guard application on road side, top and ends of concrete barrier walls

* Single-lane road closures are permitted to complete the work provided a 3.5m wide lane is accessible to two-way traffic and access for emergency vehicles is maintained at all times.
